

Mopping the floor made fun!

-Neha Rana

Mopping the floor is a boring task to do because it involves no excitement and enjoyment.

Make it fun!

In order to make mopping fun, mop slippers can be used.

- You wear the slippers on
- Play the songs of your liking
- Dance any how you want
- As you are having fun, dancing to the song of your liking, the floor gets mopped

Encouragement and Motivation

As we hear our favourite songs, our first instinct is to dance. So hearing our favourite songs play on the speakers of the slippers we would want to dance. So we dance with the slippers on because we dance any how we want and as a bonus we get out floors cleaned.
